

Declaration of Conformity N°: 1101/2021

Subject: REACH and RoHS compliance

This declaration concerns the following families of cables manufactured by Prysmian Cables Spain, S.A.

CABLES: AFUMEX RZ1-K

REACH compliance

Prysmian Cables Spain S.A understands that raw materials, used in its production process, are subject to the obligations established by REACH regulation (EC Regulation 1907/2006).

REACH regulation classifies the product **CABLES** as: **articles**, not intentionally releasing substances. These products, not being "substances" are not requested to be registered.

REACH also focuses on a specific group of hazardous substances, named "Substances of Very High Concern" (SVHC), by establishing specific obligations regarding them. A list of SVHC Substances called "Candidate Substances" is updated by ECHA (the European Chemicals Agency). The presence of such substances in final products, put on the European market, should be notified to the customer if exceeding the 0,1% by product weight.

At the best of our knowledge, none of the "Candidate Substances" belonging to the last version of the "Candidate Substances List" released in June 2020 are supposed to exceed the 0,1% by weight in the articles under the scope of this document.

EU Directive RoHS 2 (2011/65/EU) / RoHS 3 (2015/863/EU)

The families of cables under the scope of this declaration, manufactured by Prysmian Cables Spain, meet the requirements of the European Directive RoHS 2 (2011/65/EU) regarding the restricted substances indicated in expanded list for Directive RoHS 3 (2015/863/EU)

Best regards,

Santa Perpètua de Mogoda, 08/11/2021
